Concept | Brand Identity | Packaging

Croomble is an artisan bakery born with the purpose of bringing ridiculously good, chunky cookies into everyday urban life. The brand values the quality of its premium ingredients and a joyful consumption experience—translating these principles into a welcoming, vibrant, and highly shareable lifestyle brand.

The main challenge was to reposition the brand's perception, which was previously seen as a traditional and somewhat unappealing "souvenir" snack. In addition, Croomble needed to stand out in a fiercely competitive digital food scene by balancing artisanal authenticity with a trendy, Gen-Z-friendly language. It was essential to create an identity that communicated joy, energy, and premium quality.

The solution was guided by the concept of "Premium Playful," which shaped the entire brand development. The process involved contextual research, a complete positioning pivot, and the creation of a visual identity that translates the connection between high-quality baking and unapologetic fun.

The logo was designed with a chunky, retro-serif typographic character, highlighting the modified "O" as a graphic detail that evokes a bitten cookie and works as the brand's visual signature. The color palette balances vibrant tones like Berry Dough Pink, Oven Mustard, and Morning Sky Blue, creating an energetic and memorable atmosphere.
